Board Charter and Relationship With Management

Charter

1 Introduction

The Board of the Company has adopted this Board Charter to outline the manner in which its constitutional powers and responsibilities will be exercised and discharged, having regard to principles of good corporate governance, international best practice and applicable laws.

This Charter includes an overview of:

- Board composition and process;
- the relationship and interaction between the Board and management; and
- the authority delegated by the Board to management and Board Committees.

The Board Charter and the charters adopted by the Board for its standing Committees have been prepared and adopted on the basis that strong corporate governance can add to the performance of the Company, create shareholder value and engender the confidence of the investment market.

This Charter is to be reviewed by the Board as required and at least every second year.

2 Board composition

2.1 Board composition and size

- The Board is appointed by the shareholders. Non-executive Directors are engaged through a letter of appointment.
- The Board, together with the Nomination and Remuneration Committee, determines the size and composition of the Board, subject to the terms of the Company's Constitution.
- It is intended that the Board should comprise a majority of independent Non-executive Directors and comprise Directors with a broad range of skills, expertise and experience from a diverse range of backgrounds. The number of Directors shall be determined in accordance with the Company's Constitution and the requirements of the *Corporation's Act 2001* (Cth).
- The Board, together with the Nomination and Remuneration Committee, will review the skills represented by Directors on the Board and determine whether the composition and mix of those skills remain appropriate for the Company's strategy, subject to limits imposed by the Constitution and the terms served by existing Non-executive Directors.

2.2 Director independence and tenure

- The Board regularly reviews the independence of each Non-executive Director in light of information relevant to this assessment as disclosed by each Non-executive Director to the Board.
- The Board only considers directors to be independent where they are independent of management and free of any business or other relationship that could materially interfere with, or could reasonably be perceived to interfere with, the exercise of their unfettered and independent judgment. The Board has adopted a definition of independence that is based on that set out in Box 2.3 of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations (4th Edition) (see Attachment 1).

3. Board role and responsibilities

- The Board does not believe that it should establish an arbitrary limit on tenure. While tenure limits can help to ensure that there are fresh ideas and viewpoints available to the Board, they hold the disadvantage of losing the contribution of Directors who have been able to develop, over a period of time, increasing insight in the Company and its operation and, therefore, an increasing contribution to the Board as a whole. Accordingly, tenure is just one of the many factors that the Board takes into account when assessing the independence and ongoing contribution of a Director in the context of the overall Board process.

3 Board role and responsibilities

The Board's role is to:
